EXPERIENCE

USC Games
Front Desk Student Worker | 2025 - Present

- Support students and faculty with equipment checkout, inventory management, and email inquiries.
- Led the transition from manual equipment checkout to a barcode-based system.
- Created documentation to help student workers set up barcodes and enter equipment into the checkout system.

PROJECTS

Claudiatron
Game Designer | May 2026

- Helped refine driving controls for smoother vehicle movement.
- Contributed to passenger pickup functionality, positioned seated passenger models for taxi pickups.
- Developed a route guidance system directing players to passenger pickup locations.

Neuromancer, Open Alpha project
2D Artist | September 2025 - April 2026

- Designed potion ingredients and an original character.
- Proposed closer communication among artists working on similar assets, including characters, to support a consistent visual style.

Bubble Weaver, Global Game Jam
Composer | January 2025

- Created three unique songs for the game using Soundtrap, using limited tools to develop an immersive soundscape that elevated the game's unique art direction and player experience.
